

Dear Clients,

I am pleased to inform you that on May 31st of this year, Sea & Marine Products S.L., of the Swiss group Seamed United, S.A., completed the purchase of Drassanes Despuig S.L.,

With this purchase, the team of Roses Shipyard S.L. (formerly Drassanes Despuig, S.L.) is looking forward to giving the Roses Shipyard an impetus in customer service, and in the sustainability and adaptation of our operations to the local environment.

The balance between welcoming the new management, retaining employees with vast experience, and the contribution of our key Suppliers, will allow our organization to optimize its structure and methodology, and to quickly respond to the needs of the market and of our clients. We intend to offer new value propositions, a better experience, and an excellent level of customer service.

It is by the joint effort of our team, always with the support of our suppliers/providers, that we will contribute ideas and solutions to improve not only the enterprise as a whole, but also the day-to-day operations, ultimately increasing the value of our services to our clients.

I am personally grateful for the support and trust placed in me by Seamed United, S.A., and in particular by Frederic Chauvin, partner of said company. I feel truly motivated by the challenge of heading this project.

I would like to invite you, as one of our most distinguished clients, to visit our facilities, introduce myself in person, and describe the improvements and changes that we have planned for this new enterprise.

I attach below the contact information of our key personnel:
